river, and the boundary extended north as far as there were any inhabitants to the boundary of Summit Stake. The Heber Third Ward included the area south of First South east of Main Street and south of Second South west of Main Street.

One of the first cooperative projects of the three new wards was construction of the Heber Amusement Hall in 1906 and 1907. The building was badly needed to meet the growing demands of auxiliary organizations of the wards.

The building, now known as the Heber Social Hall, was built under the supervision of Edward D. Clyde. Most of the work on the building was done by volunteer laborers.

When the building was begun the men of the wards turned out in full force to help on the project. The women were present to serve them a delicious meal at the Stake House.
